PROFESSIONAL SUMMARY

Computer Science graduate (CGPA: 3.7/4.0) with experience building web applications using React.js, Next.js, TypeScript, Node.js, and SQL/NoSQL databases. Skilled in REST API development, form validation, authentication, AI-powered features, speech-processing workflows, and CRM automation.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: PostgreSQL, MongoDB, MySQL, Prisma
AI & Speech: GPT/LLM APIs, RAG, TF-IDF, Whisper, Orpheus
Tools: Git, GitHub, Docker, Vercel, Postman, HubSpot, Google Tag Manager, Google Analytics

EXPERIENCE

Software Engineering Intern | Fantech Labs | Jul 2026 – Sep 2026
- Built a Movie Explorer with Next.js and TypeScript, including dynamic movie pages, debounced search, favorites, and recently viewed items.
- Developed and reviewed a forms project using React Hook Form, Zod, Prisma, and PostgreSQL.
- Built an API to create HubSpot workflows programmatically with Claude Code, addressing a workflow-creation gap in the available HubSpot MCP tooling.
- Worked on HubSpot workflows, data enrichment, CRM integrations, orphan company/contact identification, and Metadata.io form metadata.
- Used Google Tag Manager and Google Analytics and reviewed Metadata.io tags for marketing analytics tasks.

Backend Intern (Hybrid) | Punjab Information Technology Board (PITB), Lahore | Apr 2026 – Jun 2026
- Developed Express.js APIs for CRUD operations, routing, file uploads, and JWT-based authentication; tested REST APIs with Postman and integrated MySQL data.

Frontend Intern | Bytewise Limited | 2024
- Built responsive interfaces with HTML, Tailwind CSS, and JavaScript, plus React.js projects including an Expense Tracker, Shopping Cart, and To-Do app.
- Practiced component-based architecture, Git version control, and Vercel deployment.

PROJECTS

Movie Explorer | Next.js, TypeScript, TMDB API, Tailwind CSS, shadcn/ui
- Built a movie discovery app with trending, popular, top-rated, upcoming, and now-playing sections, detail pages, search, favorites, and recently viewed movies.
- Implemented debounced search, URL-based search state, keyboard-accessible interactions, reusable components, and Vercel deployment.

WordKnit — Vocabulary Learning & Speaking Coach | React, Node.js, Express.js, MongoDB, Whisper, GPT, Orpheus
- Built a full-stack vocabulary-learning app with contextual word explanations, saved vocabulary, and an AI speaking coach for IELTS-style question-and-answer practice.
- Implemented a voice-response pipeline: captured user audio, transcribed speech with Whisper, generated contextual GPT responses using speaking-practice goals and saved words, then generated spoken audio with Orpheus.

RAG-Based Document Chatbot | Next.js, Node.js, PostgreSQL, Vector Search, LLM APIs
- Built a document Q&A chatbot that chunks uploaded documents, retrieves relevant passages using embeddings and semantic search, and displays source passages with answers.

E-Commerce Application | React.js, JavaScript
- Built an e-commerce practice project to strengthen React fundamentals, including reusable components, state management, and React Hooks.

EDUCATION & CERTIFICATIONS

BS Computer Science | University of Okara, Renala Khurd | 2022–2026 | CGPA: 3.7/4.0
Certification: CS50x — Harvard / edX
Relevant Coursework: Data Structures & Algorithms, Database Systems, PostgreSQL, React, Next.js, TypeScript
